A PROJECT DESCRIPTION

The City of Sheboygan is planning to replace a trail bridge in Evergreen Park crossing the Pigeon River. The new bridge will consist of a single-span steel truss superstructure supported on timber abutments founded on timber piling. The anticipated length of the bridge will be approximately 65 ft. The actual length will be determined after completion of the hydraulic analysis and preliminary design.

Erickson Engineering will perform a hydraulic analysis of the new bridge crossing and prepare preliminary design information (dimensions, low member elevation, deck elevation) of the structure.

B SERVICES

In this document, "Client" refers to City of Sheboygan and "Consultant" refers to Erickson Engineering Co., LLC.

The Consultant agrees to provide the following services to the Client in connection with the aforementioned project, according to the terms of this agreement.

1.0 Hydraulic Analysis

1.1 The Consultant shall prepare a hydraulic flood analysis for the proposed bridge crossing. The analysis will contain data required by State and Federal agencies related to stream flow, water surface elevations, velocities, flood stage increase, and scour. The proposed bridge will be sized to produce no stage increase compared to the existing condition. The hydraulic analysis will be based on steady, gradually varied peak flow conditions for all flood frequency events analyzed. The analysis will not include preparation of a Letter of Map Revision (LOMR), if required.

2.0 Preliminary Design

2.1 The Consultant shall prepare and submit to the Client preliminary design information for the proposed trail bridge. The preliminary design information will include dimensions, low member elevation, and deck elevation.

C COMPENSATION

Compensation in full for the work described in section B Services will be on a Cost Plus (Time and Materials) basis, which includes the Consultant's profit. Section E shows the Consultant's Time and Materials rates, and these rates are a part of this agreement.

Fees and payment for services listed in this agreement will be as follows:

Services	Estimated Fee
1.0 Hydraulics Analysis	\$ 4,500.00

Conditions and Payment Schedule

Upon completion of the work, the Consultant shall send an invoice to: Ryan Sazama, City of Sheboygan Department of Public Works, 2026 New Jersey Ave., Sheboygan, WI 53081. The Client shall remit payment to the Consultant within sixty days of receipt of invoice.

Cancellation: If the Client cancels this agreement, the Consultant may request payment for all work performed up to the cancellation date. The Client shall pay for fully completed work as outlined above. The Consultant will invoice partially completed work on a Time and Materials basis, according to section E Time and Materials Rates. The total amount invoiced for the partially completed work will not exceed the amount which would have been due had the work been fully completed.

Additional Services: If the Client requests that the Consultant provide services not listed in this agreement, or if any additional services are required due to revisions in Client standards or specifications, then the Consultant may request reimbursement for such services.
